

G SHLOK

Automation Engineer | Frontend Developer | Aspiring Software Engineer
shlokgraman@gmail.com | linkedin.com/in/shlok-g | github.com/gshlok

SUMMARY

B.E. Information Science student (9.13 CGPA) proficient in React, DSA, ML, and automation. Built blockchain/AI projects and currently automating workflows at Rilo.

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript, HTML, CSS

Frameworks/Tools: React.js, n8n, Streamlit, scikit-learn, Solidity

Version Control: Git/GitHub

Competitive Programming: LeetCode, Codeforces Problems

Concepts: DSA, OOP, ML, Blockchain, Workflow Automation

EXPERIENCE

Automation Intern – Rilo

Nov 2025 – Present

Fast-paced Startup

Bangalore, Karnataka

- Created multiple automation workflows for departments like sales, marketing, growth, content, email, and meetings, reducing manual workload and streamlining operations.
- Worked closely with founders to identify automation needs and integrate scalable solutions.

Coding Club, RV College of Engineering

Dec 2024 – Present

Volunteer & Event Organizer

Bangalore, Karnataka

- Volunteered for multiple technical events and workshops, contributing to the club's community outreach and technical engagement.
- Organized several hackathons and coding workshops with hundreds of participants, managing event flow, logistics, and mentorship.

PROJECTS

Time-sink-estimator | *Streamlit, scikit-learn, Python*

github.com/gshlok/time-sink-estimator

- Developed an interactive web tool using Streamlit and scikit-learn to estimate hours spent on a video game based on user preferences and play history.
- Implemented regression-based ML models to train on game data and predict playtime patterns.

AchainI | *React, Solidity, IPFS, MetaMask, Firebase*

github.com/gshlok/achaini

- Developed a blockchain-based web app that verifies authorship of AI-generated content by hashing, storing metadata on IPFS, and anchoring signed proofs on-chain.
- Implemented dual interfaces for content creation and ownership verification using React, MetaMask, and Solidity smart contracts, enabling end-to-end provenance tracking and decentralized identity linkage.

Slack n8n Automator Bot | *n8n, Slack, OpenAI, Anthropic*

github.com/gshlok/slack-n8n-automator_bot

- Built an AI-powered Slack bot using n8n, OpenAI GPT, and Slack API to convert natural language requests into fully configured automation workflows.
- Implemented multi-turn dialogue handling, context management, and robust error handling with modular, production-ready design.

EDUCATION

RV College of Engineering

Bangalore, India

B.E. in Information Science and Engineering (CGPA: 9.13)

2024 - Present

RVPB PU College

Mysore, India

II PU (95.16%)

May 2024

SVEI

Mysore, India

X CBSE Board (94.2%)

May 2022
